PRINCIPAL REVIEW

Summary of work performance in the period, including strengths, areas for development and any new work experience :
Overall, the trainee has made significant progress during this period, with clear areas for future development that will help them continue to grow in their role.

Evaluation of performance against targets set at previous review :

I support the trainee's development needs identified, such as exposure to more complex audits, leadership opportunities, and training in data analytics. These experiences will help them grow professionally and prepare them for more senior roles in the future.
