Summary of work performance in the period, including strengths, areas for development and any new work experience.	Overall, the trainee has made significant progress during this period, with clear areas for future development that will help them continue to grow in their role.
Evaluation of performance against targets set at previous review.	The trainee has made commendable progress on the targets set during the previous review. While they have fully met some of the objectives, there are areas—especially risk analysis and communication—where continued improvement is recommended to ensure full target achievement in future evaluations.
Identified future experience and development needs.	The trainee has shown significant progress, and with further experience in these key areas, they will be better equipped to handle more complex responsibilities and advance in their role. Developing these skills and gaining broader exposure will position the trainee for future success in the audit field.
Performance targets for the next period.	Performance targets for the next period
Principal comments (to be completed only if our review has been carried out by an authorised Authorised Supervisor).	I support the trainee's development needs identified, such as exposure to more complex audits, leadership opportunities, and training in data analytics. These experiences will help them grow professionally and prepare them for more senior roles in the future.
